128A Gold Street Bungalow Area
Jakande Estate isolu, Lagos.

SKILL

- multitasking
- Problem Solving
- Machine Design
- website Development: front end Developer

INTERESTS

Web Development: my Interest in this is based of the fact that I can create interactive websites for business or organizations with is a very technical skill to acquire as the world is Technologically advancing.

Machine Design: I have the desire to create a better aircraft Design focusing majorly on the engines of the plane but not neglecting the other parts of the plane

Automation This is based on the desire to created fully Automated aircrafts

EXPERIENCE

16/07/2024 - 15/10/2024 **FAAN Federal Airport Authority Of Nigeria**
Power House
Mechanical department: Back up Generator maintenance and repair.

EDUCATION

400L **Bells University of Technology Ota Ogun State**
MECHATRONICS ENGINEERING
GPA: 4.48

PROJECT

- creating the simple GUI of a calculator**
I created the simple GUI of a calculator with the ability to computer simple operation like addition multiplication and division. It has number inputs with range zero to nine. This project was done using Python and it cannot perform complex operations like that of logarithms, exponential and the likes. I must state I am still a beginner in this and the rest below but I am very much willing to grow
- Web Page**
Development of Web page design using Html and Css. I must state that I am still a beginner in this skill
- Machine design**
Creating or designing parts using Cad software like Autocad and solid works which I am at beginners level.

ACTIVITIES

Street To Forbes By Dr Akin Akinpelu: I volunteered here as a member of the protocol unit where which we ushered in the guest speakers for the program and also made sure that our guest were well protected and taken care of.

School Female Football Team: I played in this team as the left back defender.
